

Prior to starting PDPetry Consulting in 2020, Page served as the Chief IT Officer of the Americas at Marriott International in Washington D.C. where she directed key initiatives for Marriott International hotels.

During her extensive 33 year Marriott career, Page held a variety of roles allowing for a deep understanding of the Hospitality Industry. For 10+ years as CIO of the Americas, she led the Continent IT Organization. She designed and led the implementation of the Marriott International North America IT Organization, launched the industry leading Property Internet Program and was part of the integration efforts for several major acquisitions including Ritz Carlton Hotels, Starwood Hotels, the Autograph Collection, Gaylord Hotels, and Delta Hotels and Resorts.

In 2011, Page was honored with a place on Computerworld's Premier 100 IT Leaders. In 2020, she was recognized as one of Hospitality Upgrade's Technology Rockstars, celebrating her impactful contributions to the industry.

Page is on the Board of Directors for Cloud5 Communications, a Business Advisor to PurpleCloud Technologies and a Business Advisor to Sinclair Digital. She works with companies assisting in their product planning and go to market strategies. Page is an active member of AHILA, an industry association focused on hospitality.

Page Petry has been an integral part of HTNG since 2011, consistently contributing to the evolution of hospitality technology. Now recognized as a member of the Global Technology 100 (T100), Page joins an elite group of global technology leaders who are driving transformative advancements in the hospitality industry.

Page has worked for many years supporting the education of students with a focus on STEM. She served on the board for The Information Technology & Computer Science Advisory Group for Montgomery County Public schools and the National Academy Foundation STEM Advisory Board.
